

May 23, 2014
Viacheslav Adamchuk

Bio-geospatial Technologies Seminar

Attendance:

- Viacheslav Adamchuk - Bioresource engineering
- Caroline Begg – Plant Science
- Nandkishor Dhawale - Bioresource engineering
- Maria Mastorakos - Bioresource engineering
- Bharath Sudarthan - Bioresource engineering
- Asim Biswas - NRS
- Jeffrey Cardille - NRS
- Peter Enright – FMT
- Yue Su - Bioresource engineering

Presentation and follow-up discussion on three topics presented by Jeffrey Cradile:

1. Using satellite imagery to detect the level of carbon in lakes across Quebec
2. Examples of using Google Earth Engine
